Water Engineering Technologies

WATER ENGINEERING TECHNOLOGIES (FZC) is a leading manufacturing, distributor and supplier of quality water purification systems of a complete line of domestic, commercial and industrial systems. WET was established by a team of water treatment professionals in designing and manufacturing the finest and most economical water, waste water and sewage treatment systems. WET places great importance in providing competent on-site support for all technologies supplied.

We believe that brisk adaptation of new and upcoming technologies always keep us ahead of our competitors. We are fully aware of the fact that only versatile staff, distinctive quality and advanced technology can keep us survive and succeed in today's highly competitive market. Hence, we will be with overall technology support, good service to meet the requirements of the world.

Core Activities ●●●●

- Water Purification Equipments
- Water Bottling & Packaging Systems
- Ultrapure Water Systems
- Waste Water Treatments & Recycle
- Water Treatment Chemicals
- Spares & Consumables
- Operation & Maintenance

Vision ●●●●

“To be the company that best understands the products, services and solutions for your growing needs.”

Filters ●●●●

- Multimedia
- Activated Carbon
- Iron removal
- Ultrafiltration
- Cartridge/ Bag Filter
- Filters are available for Auto/ Manual operation.

Reverse Osmosis ●●●●

- Domestic
- Industrial
- Containerised/ skid mounted
- Tap water
- Brackish Water
- Sea Water

Softeners/Deionisers ●●●●

- Simplex/ Duplex
- Timeclock/ Volumetric
- Twin Column De ionisers/ Mixed Bed Deionisers
- Electro De Ionisation (EDI)

Water Treatment Chemicals ●●●●

WETCHEM is dedicated to providing our customers with the best service and solutions possible to maximize system efficiency. This especially includes the chemicals and products that we use in our solution programs. We have a complete portfolio of chemical solutions to aid in corrosion inhibition, scale & deposition prevention, and biological fouling control.

We have a complete series of advanced chemical solutions for every stage of your industrial water operation. From the intake of raw water or pretreatment for utility make-up to wastewater disposal, WETCHEM can provide a chemical treatment program customized for your unique system requirements.

- Domestic/Potable Water
- Boiler
- Chiller
- Cooling Tower
- Reverse Osmosis
- Swimming pool
- Pretreatment
- Wastewater treatment

Chemical Dosing Pump & Controller ●●●●

EMEC, Italy products are designed with the passion and commitment that comes with years of investment in technology and human resources, resulting in the delivery of reliable and constantly updated products. Our core range features:

- Dosing pumps
- Integrated control and dosing systems
- Control instruments
- Mixer / Agitator
- Probes
- Accessories and spares

Water Bottling Plant & Packaging Systems ●●●●

5 Gallon Filling & Washing Machine

CUP FFS Machine

PET Blow Moulding Machine

Waste Water Treatments & Recycle ●●●●

- Sewage Treatment Plants
- Industrial Waste Water Treatment
- Grey water Treatment
- Laundry
- Car Wash
- Oil & Grease Removal Systems
- Ultra Filtration Skid

Auxillary Equipments ●●●●

ULTRAVIOLET DISINFECTION SYSTEMS (ME Regional Distributor-Hanovia, UK)

Hanovia Ultra Violet systems are based on nine decades of continuous development and experience in UV science and Technology with references from biggest names in food, beverage, electronics, pharmaceutical, aquaculture, pools and leisure and many other industries.

OZONE GENERATORS (ME Regional Distributor-Ozotech, USA)

Ozotech provide a complete ozone disinfection equipment for small scale water purifiers to large commercial water purification systems in accordance with FDA, USDA, and IBWA guildlines.

CONTROL VALVES, FITTINGS AND ACCESSORIES

Clack Corporation is a leading manufacturer of control valves, water filter & water Softener control Valves.

ULTRAPURE WATER SYSTEMS (ME Regional Distributor-Suez, UK)

SUEZ Water Purification Systems, earlier known as PURITE, specializes in design, development and manufacture of advanced, high performance water purification systems that add real value to industrial, healthcare and laboratory operations

Filters ●●●●

- Multimedia
- Activated Carbon
- Iron removal
- Ultrafiltration
- Cartridge/ Bag Filter
- Filters are available for Auto/ Manual operation.

Reverse Osmosis ●●●●

- Domestic
- Industrial
- Containerised/ skid mounted
- Tap water
- Brackish Water
- Sea Water

Softeners/Deionisers ●●●●

- Simplex/ Duplex
- Timeclock/ Volumetric
- Twin Column De ionisers/ Mixed Bed Deionisers
- Electro De Ionisation (EDI)

Our Key Principals

ERMAC

5Gallon and PET Bottling Line Solutions (TURKEY)

RGF

ENVIRONMENTAL GROUP, INC.

Waste Water Treatment Solutions (USA)

OZOTECH

* Leader of Ozone Technologies *

Ozone Disinfection systems (USA)

MEGA

INJECTION MOULD

Blow Moulding and Injection Moulding Machines (CHINA)

GAMA-PLAS

Water Cup Machine (TURKEY)

suez

Suez Water Purifications Systems (UK)

中辰轻机
HEFEI ZHONGCHEN

PET Bottling Line Solutions (CHINA)

ERACO

Air Conditioning & Industrial Application

Water Chiller (TURKEY)

EMEC

LIQUID CONTROL SYSTEMS

Chemical Dosing Pumps and Controllers (ITALY)

Italmatch Chemicals

Water Treatment Specialty Chemicals (UK)

Optimak

Industrial Robotic Solutions (TURKEY)
